

DISPLAY BOARD PROGRAM UPDATE!!!

★50 New Items★

Over 420 Popular Items At Your Fingertips

DB-420 Display Boards

In today's uncertain economic climate people have been hanging on to their vehicles longer than ever before (the median age of passenger cars in operation in the US is hovering around 9.5 years) BUT in the last 18 months new car sales have made a comeback. What that means to the body shop business (people have accidents with both old and new vehicles) is that there is an even greater pool of popular items used in the repair of vehicles. Accordingly **we have expanded our Display Board program from six boards to seven boards to include additional popular items.**

If you already have a set of the six green DB-370 display boards then you only need to order a yellow DB-420-7 display board as well as a green DB-0 binder which will accommodate seven display boards. Otherwise please order DB-420-9 which consists of all seven display boards in the new Auveco binder.

The DB-420 consists of over 420 very popular items shrink-wrapped onto six convenient, 11" x 14" durable display boards. These seven boards represent the parts that a distributor should be selling to all the body shops. They cover all the popular items in all the necessary different body shop product groups.

The back of each board contains the appropriate information on part numbers, unit package quantities, O.E.M. numbers and size specifications. The backs are protected by a clear plastic liner.
